Select a programme around your experience, learning goals and time for practice.

C (PTT) **1 MONTH | 50 HOURS**

Certificate in Play-Based Teacher Training

10 practical modules

Focused upskilling in daily planning, circle time, stories, rhymes and integrated play.

Practice: Five daily plans, a weekly theme, teaching aids, demonstration and portfolio.

D-PTT **6 MONTHS | 240 HOURS**

Diploma in Play School Teacher Training

14 professional modules

A structured foundation for freshers, practising teachers, daycare educators and career changers.

Practice: Child development, classroom methods, planning and a 50-hour internship.

AD-PTT 1621 **24 MONTHS | 1,200 HOURS**

Advanced Diploma in Preschool Teacher Training

20 professional modules

Extended preparation for teaching, curriculum design, coordination and preschool leadership.

Practice: Four semesters, a 240-hour supervised practicum, curriculum studio and capstone.

Practical and AI learning hours are included within each programme total. Choose the pathway that fits your goals with guidance from the admissions team.

Knowledge you can put into practice.

Programme depth varies by pathway. Across the courses, learning connects planning, facilitation, feedback and reflection.

01

Understand young learners

Development, wellbeing, individual differences and supportive classroom relationships.

02

Make play purposeful

Daily routines, circle time, stories, early language, numeracy, art, movement and nature.

03

Create useful resources

Daily and weekly plans, low-cost teaching aids and original activities for Indian classrooms.

04

Teach with care

Inclusion, positive guidance, observation and professional communication with families.

Responsible AI in teacher preparation

Learn to draft original stories, activity ideas and generic planning resources, then check accuracy, language, inclusion and suitability before use.

Includes adult awareness of AI and theoretical superintelligence. Children learn through people, physical materials and screen-free play; their personal information stays out of AI tools.

Learn → Create → Demonstrate → Reflect

Build a professional portfolio through practical tasks and tutor feedback. Diploma and Advanced Diploma include supervised preschool practice.

Let’s find the right course for you.

Speak with the programme team about your background, goals and preferred way of learning.

Who can apply?

Certificate and Diploma welcome learners with a genuine interest in preschool work and readiness for practical tasks. Advanced Diploma requires Grade 12 / Higher Secondary or equivalent, language proficiency and access to supervised practice.

How can I learn?

Online, offline and blended delivery may be available. Ask about your batch’s timetable, centre, digital access and required supervision.

What should I ask before enrolling?

Request the current fee, payment terms, next intake, detailed syllabus, entry requirements and internship or practicum arrangements.

How is the course completed?

Complete the prescribed learning hours, assignments, demonstrations and portfolio, with supervised practice and viva where required.
